Listening to music shouldn't be so complicated.

We live in a digital age where more music is at our disposal than ever. But for many, the simple act of listening to music has become more *inaccessible* than ever. Today's music is locked behind apps, passwords, subscriptions, ads, and changing technology.

As a performer myself, I kept hearing this over and over from fans of my music. "I don't do streaming." "My car doesn't have a CD player anymore." "I'm just not very tech savvy."

That's why I decided to start EasyPlay Music.

I hope that this new way to listen will bring the joy and simplicity of playing music back into your homes, and that you'll enjoy sharing the fun with your family and friends.

It's time to listen to music the easy way... with EasyPlay Music.
